Primary Contact Name:	Joanne Firth
Primary Contact Title:	Industry Liaison Officer
Phone:	902.209.9246
Email:	joanne.firth@nsc.ca
Research Office:	NSCC Applied Research & Innovation
Business Address:	

Proposed Services:

NSCC Applied Research develops practical and innovative solutions for industry's real-world problems. With an expert research team and network of faculty and students from some of our most challenging and cutting-edge programs, we help industry improve their products, enhance processes, and grow their businesses.

We specialize in five applied research areas: Energy, Engineered Technologies, Environmental Technologies, Geomatics, and Oceans.

Since our beginning in 2000, we've grown in our capacity and scope. We are now a multi-million-dollar research operation that responds to the needs of industry and the community. In 2015 and 2016, we were added to the list of Canada's top 50 research colleges. In addition to our five main areas of research, NSCC Applied Research has access to faculty and student expertise from over 120 programs offered by the college including business, culinary, natural resources and more.

Services available from NSCC under this voucher program include:

- Applied research;
- Industrial/process engineering services;
- Scientific/technology related advice and support;
- Proof of concept, field testing and product evaluation;
- Prototyping;
- Product design; and
- Feasibility studies necessary to help move a new, innovative product or service to market

The **Productivity and Innovation Voucher Program** is intended to help small and medium sized businesses become more productive and innovative while building stronger linkages between businesses and Nova Scotian universities and colleges.
