

Service Provider Profile

Productivity & Innovation Voucher Program

Université Sainte-Anne

Primary Contact Name:	Valérie Lalande
Primary Contact Title:	Research and Development Manager, Industry Liaison Officer
Phone:	902.260.3110
Email:	valerie.lalande@usainteanne.ca
Research Office:	Université Sainte-Anne
Business Address:	1695 Highway 1, Church Point, Nova Scotia B0W 1M0

Proposed Services:

- Feasibility studies and commercialization consulting, which are necessary to help move a new product to market.
- Applied research (biochemistry, microbiology, genomics) in the fields of fisheries, aquaculture, agriculture, agri-food, and forestry.
- Scientific and technology related advice and support (fisheries, aquaculture, agriculture, agri-food, and forestry).
- Proof of concept, field testing, product evaluation and certification (fisheries, aquaculture, agriculture, agri-food, and forestry).
- Specialized chemical and microbiological laboratory testing for various industries including water, wastewater, feed, soil, and food processing.

All services are available in French and English.

The **Productivity and Innovation Voucher Program** is intended to help small and medium sized businesses become more productive and innovative while building stronger linkages between businesses and Nova Scotian universities and colleges.
