NOVA SCOTIA  
**SEAFOOD**  
PURE.  CANADA.

Nova Scotia is home to a diverse range of the highest quality seafood and value added products - from our world famous Canadian hard-shelled lobster and coldwater shrimp, to snow crab, scallops, white fish, and sea cucumber - all harvested from the cold, clean, and pristine waters of the Atlantic Ocean. PURE.

Our seafood is handled with the utmost care every step of the way - from the boats to the dock and our processing plants, we ensure it tastes as fresh as the day it was caught.

Nova Scotia wild seafood and shellfish mature at a natural pace, and swim freely in the clear waters off Nova Scotia's rugged 7,000 km coastline.

Nova Scotia seafood is prized around the world. Its superior flavour and premium quality result from the icy temperatures of the surrounding Atlantic Ocean. Discover more about the wide variety of Nova Scotia seafood we offer.
